

Cursussen binnen de VU Amsterdam, William James Graduate School toegankelijk voor ISED promovendi

Cursus specifiek voor promovendi:

- **Research Ethics, 3 EC**, prof. dr. D. de Ruyter en dr. A. Schinkel;
- **Scientific Presenting, 3 EC**, dr. E.A.C. van Leeuwen.

Aan deze beide cursussen zijn kosten verbonden.

Cursussen van de VU researchmasterprogramma's

Meer informatie: zie de VU online [studyguide](#).

Voor deelname zal altijd voor toestemming contact opgenomen moeten worden met de docent.

- **Advanced Data Analysis, 6 EC**, dr. M. Gallucci.

The aim of the course is to enable students to plan, execute, and interpret appropriate statistical analyses for applied and experimental research data.

- **Programming for Psychologists, 6 EC**, dr. D. Schreij.

You will learn how to design psychological experiments and how to implement these using the OpenSesame software package and the Python programming language.

- **Elective courses from our researchmasterprogrammes (alle 6 EC):**

- Thinking and Deciding
- Advanced Structural Models
- Leadership and Organization
- Aging and Mental Health*
- Autism and Developmental Disorders*
- Memory and Memory Disorders*
- Neuroscience and Education*
- Neural Models of Cognitive Processes **
- Juvenile Delinquency and Antisocial Development **
- Parenting and Mental Health**
- Cognitive Behaviour Therapy**
- Brain, Cognition and Mental Health**
- Perception* *
- Human Information Processing**

* Courses are being taught every other year, so in 2014-15, but not in 2015-16.

** Courses are being taught in 2015-16, but not in 2014-15 and not in 2016-17.
